

FIBER REINFORCED COMPOSITE FENCING

TIMBERWOLF®

 THE FUTURE OF FENCING

The FiberTech Advantage

FiberTech Ploymers, LLC, proprietary raw material and manufacturing process converts landfill bound wood-fiber and plastic waste into durable, aesthetically pleasing building products. These products retain the natural look and feel of real wood but require little to no maintenance.

TimberWolf® fencing has the look and feel of real wood and offers significant durability advantages over competing wood, vinyl and other composites at comparable or, in some cases, lower cost. The durable, fiber reinforced design of TimberWolf® fencing ensures installation and workability is accomplished with ease.

THE BEST VALUE PER LINEAR FOOT!

FEATURES

- Natural Look and Feel of Wood
- High Durability - Low Maintenance
- Design Flexibility - Fabricates Like Wood
- Transferable Lifetime Warranty
- Environmentally Responsible

PERFORMANCE

- Minimal Expansion and contraction
- Less than 1% moisture absorption
- Resistant to rotting, splitting, cracking
- Resistant to algae, mold or fungus

AVAILABLE COLORS

THE FACTS...OUR COMMITMENT TO ENVIRONMENTALLY RESPONSIBLE LIVING

Three Cycle™

FiberTech's unique manufacturing process combines recycled fiber and HDPE plastic to make our eco-friendly family of landscaping products.

Eco-Friendly

All wood-fiber raw material used in our products is reclaimed from recyclers waste that would otherwise go to landfills.

Sustainable

No trees are harvested in the manufacture of FiberTech products. Our products are ISO 14021 certified by Scientific Certification Systems (SCS), to have a minimum of 90% post-consumer recycled content.

EPA Recognized

FiberTech Products are recognized by the EPA as an ally in the fight to preserve the earth's precious natural resources. The GreenScapes program provides cost-efficient and environmentally friendly solutions for landscaping.
